NROER 2.0

- Courses
- Workspaces
- Curation
- Role
- Repository
- Groups
- Wrap-up sessions
- Discussion 5th feb 2018
  - Last week of March
  - Merge Partner + Workspaces tabs => Workspaces
  - Page Loading cue
  - **Task => Calender**
  - Replace group id with Unique Name and show after domain/ remove "course" SB
  - Notifications on top header
  - Add H5P based landing page
  - Topic map should be site wide at /home
  - App names (Resource/E-Library/Blog/Task) should be configurable
  - **Index.html and elastic search**
    - save the views in ES instead of mongoDB
    - save object/model in ES
  - **home/index.html = public workspace listing (Sakshi)**
  - **workspace_name/index.html = TOC/content**
  - cross-publish to Home should publish objects to "Desk" and notify to moderator.
    workspace -> Desk -> Home
  - NROER.GOV.IN update requirements
    - Home
      - Documentation
      - **Topics**
      - **E-Library**
      - Blog
      - **Courses**
      - eBooks
      - Calender
    - Workspaces
    - indexing in ES
    - GIGW
    - AWS stats
    - Email sending script
      - Update/headsup Email
    - H5P interx.metastudio.org
      - migrate users from mastadon
    - addendum to updates
      - Calender
      - File level Analytics
      - retrieving from ES
      - Sitemap
      - Export/import
      - Badges
      - ICT Award facilitation
- Help documentation
  - Requirements
    - Technical Requirements/bugs
      - My profile/about me
      - strf error
      - Clear distinction of Personal workspace; workspaces joined and courses enrolled
      - Move My created workspaces to beside personal workspace
      - Search the interested topics etc
      - Different analytics for contributors and students/teachers
      - Over performance graph ex: FB analytics
      - Request to be a contributor in WS
      - Un-enroll or Quit option or Leave
      - Add RAW MATERIAL tag on AssetCollection card
      - Prompts for similar interest courses and workspaces (based on profile and already enrolled courses)
      - Display tags/description on Workspace card
      - In-progress and Complete course are ambiguous
      - Resources Tool tip: add Downloadable useful files....
      - Save in Gallery is not throwing error when compulsary fields
      - Remove RAW MATERIAL tag in gallery add folder
      - review mechanism to check inappropriate audio/video
      - Make gallery uploading as configurable
      - Task Vs Event
      - In workspace Write Note should be Write Blog
      - Topic map only for admins?
      - When a page is opened it doesnt look like a page. Add some side space
      - Enroll overlay in workspace doesnt show Join beside check button
      - **Sitemap**
      - Order of activity, help and coord pages
      - Different cards for activity, help and coord pages
      - while link page show only corresponding help page
      - Add word cross publish in Action alongwith icon
      - Make Title name as Unique name in Pages
      - Display who all are members/admins
      - Export Epub is removing from home asset collection
      - **Mark OER as reviewed by admin**
      - H5P uploads are not working - Ruchi
      - Check for more affordances and see performance
      - RunTime Attribute error
      - Logout and login again is giving successfulyy logged out.
      - Liked the activity player opening effect in CMS/edit mode
      - Hide lesson?
      - Context based help overlay
      - Metadata for asset-content
      - News updates
      - Remove login necessity for download from E-library
    - Academic
  - General
